

January 15, 1968

Dear Mr. Morgan:

Is it possible Mr. Shaw's attorneys were playing a little con game on Mr. Garrison when they located a man by the name of "Lee Odum, Po 19106"?

Here are some very interesting figures. I am not sure my addition and subtraction is accurate because I test sub normal on mathematical aptitude tests, but I have tried to be extra careful. I have also indicated my doubt at certain points. However, a definite pattern emerges and perhaps you can carry it further. Then will you pass it along to whomever can make use of it? Please, not the F.B.I.

TELEPHONE DIAL

Lee Odum PO 19106
Midland 2550
Newton 2550

Odum 6 *O*
Newton 6 *N*
Midland 6 *M*

(Aren't these all Texas cities?)
